

Fani Lestari

Informatics Engineering Student · Web Development

A fifth-semester Informatics Engineering student interested in web development. Building skills in HTML, CSS, JavaScript, and React, while learning MySQL, Git, and GitHub through university, a coding camp, and practice projects.

EDUCATION

Bachelor's Degree in Informatics Engineering

Universitas Sains Al-Qur'an

Fifth semester

SKILLS

Technologies currently being learned and used in practice projects:

HTML

CSS

JavaScript

React

MySQL

Git

GitHub

LEARNING EXPERIENCE

Coding camp

Taking part in a coding camp as part of my learning and web development skills journey.

Website practice projects

Building websites to put the web technologies I am learning into practice.

MySQL, Git & GitHub

Learning MySQL database fundamentals, tracking code changes with Git, and storing project repositories on GitHub.

HOW I WORK

I aim to understand project goals, communicate throughout the process, and welcome feedback so the result meets the brief.

SELECTED PROJECTS

Pondok Pesantren Nurul Hidayah
